

## LOCATION OF HONG KONG BUSINESS AVIATION CENTRE (HKBAC)

### From the Hong Kong International Airport Passenger Terminal Building

Start by following the sign to Kowloon, then take the Tung Chung turn-off to join a three-lane highway. Keep to the left and take the "Cargo, Tung Chung & Terminal" exit.

Move to the right as you approach the roundabout and stay on the right to enter the first of a series of 4 roundabouts, taking the straight-ahead exit each time, then follow the signs to "Business Aviation". You will find HK BAC on the right-hand side of the road 1km past the last roundabout

### From Hong Kong Island– By Vehicle

HKBAC is very easy to reach by road from Hong Kong or Kowloon. From either starting point follow the airport road signs. After you have crossed the Tsing Ma suspension bridge, follow the airport highway until you come to the "Cargo & Aviation Services" exit, which is the first exit after the speed limit reduces from 110 kph to 70 kph. From this point there is a system of roundabouts giving easy access to all parts of the airport.

At the first roundabout, follow the sign to "Business Aviation". This leads through a series of 3 roundabouts leading onto the long straight South Perimeter Road. The HKBAC gate is now on your right exactly 1 km after the last of these three roundabouts.
